

Paying off your Mortgage or Loan - My Best Solution		
The Loan Calculator - Your Present details		(Works with any Currency)
Changeable Cells	YOU can change these cells	USE CALCULATOR for
Original Loan	250,000	Home Loans (Mortgages)
Amount Still Owed to Lender	200,000	Business Loans
Annual Interest Rate	3.00%	Car Loans
Months to go on Payments	180	Boat Financing
Calculated Monthly Payments	1,381	Minimum, (you may pay more)
Future Payments that I Propose	2,000	Over-Paying to Repay Early
Actual Total Cost	248,609	230,434
Months to go on Payments after Over-Paying	116	
This is your position after increasing your mortgage payment...		
The Actual Overpayment you made	618.84	Over your monthly obligation
You Pay Off Mortgage after only	116	months
Surplus Funds after Repayment	1,566	at clearance of Loan/Mortgage
Saved by Making Larger Payments	146,176	(Is that ALL you saved?)
BUT, What if you saved separately with the same amount?		
Your Proposed Increase	618.84	Available for Investment
Every month, starting NOW, for	180	Months (to end of Mortgage)
Monthly Fixed Interest Rate	2.00%	Per Month
Your Accumulated Wealth would be	1,062,378	That's Much Better!

Creation of YOUR Personal Wealth Creation Program

I will personally connect you with the people who can do this - No Obligation except you use this tool!

To set up your own Personal Program, you will need to Log into our web site at <https://meetax.com>

To qualify for your own Personal Wealth Creation Program, you will need to upload the following:

- * A copy of your details in the Calculator above
- * A copy of your Loan Agreement
- * A copy of your Passport or Driving Licence (both sides)
- * Your Residential Address and Post (Zip) Code
- * Your Contact Details - Phone / E-mail / WhatsApp / Telegram / Skype

These details will never be shared with other parties or used for other marketing purposes

The Wealth Creation Program is provided by:

The company is regulated by:
